Sir:

RESPONSE "B"

The present amendment responds to the non-final Office Action. Claims 1-12 and 14-20 are pending in the present application. The Examiner has objected to claim 1 because of certain informalities. Claims 1, 2, and 3 are rejected under the judicially created doctrine of obviousness-type double patenting. The Examiner has also rejected claims 1-8, 10-12, and 14-20 under 35 U.S.C. § 103(a). Claim 9 is also objected to, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

In response, Applicants have amended claims 1, 7, 8, 10, 14, and 19, have submitted a terminal disclaimer to overcome the rejection under the judicially created doctrine of

obviousness-type double patenting, and have traversed the foregoing rejections under 35 U.S.C. § 103(a). Please reconsider the above-identified Patent Application in view of the following Amendments and Remarks. No new matter has been added by the Amendments made in this response.
